BEING CREW CAN BE TOUGH

SO WE DO WHAT WE CAN TO IMPROVE CREW WELFARE

We're here to work with your employer to do what we can to improve crew welfare.

We work with crewing companies and shipping companies to make it easier, more convenient and cheaper to get and control your salary.

Trust us, the maritime specialists.

“I liked it very much, it's a good digital solution I would say – convenient and fast . I can see my salary and overview of my account. When I travel, I like to pay with my MarTrust card. **”**

Frequently asked questions

Why is my company changing the way I'm paid?

Maritime is changing the way it pays crew salary cash to master from notes to electronic – Because it's better for your companies and for crew.

Why is it better for crewing companies?

- Sending cash to a vessel has become much harder recently
- E-wallet gives your company a range of options
- You may wish to use MarTrust to reduce the effort around Cash to Master, in collecting the allotment % and beneficiary bank account details
- Seafarers can change their home allotment % or bank account, but it is admin heavy. By doing it through the e-wallet, it makes it easier and gives you more control.

Why not just use a bank?

- Most banks do not offer the same level of support as MarTrust, and they don't have a maritime focus.
- We still work with leading banks, but MarTrust's combined transaction volumes means better rates can be negotiated.
- Lower costs means more money in your pocket.
